

RESPONSIBLE CARE POLICY

PCC Rokita SA, taking part in the Responsible Care Framework Management System and exerting, through its activity, a direct impact on the environment, employees' health and process safety, undertakes to fulfil the programme tasks and comply with the relevant provisions of law and other environmental protection regulations applicable to its activity.

It is an element of our strategy to maintain and continuously improve the Responsible Care Framework Management System, consistent with the implemented Quality Management System and Environment Management System.

"By running our activity in compliance with the applicable regulations we are driven by continuous improvement in the Responsible Care Framework Management System."

We declare to pursue continuous improvement in effects of our activity and to take appropriate actions aimed at enhancement in the following areas:

- environmental protection
- process and occupational safety
- health and prevention
- trading in chemicals
- internal and external communication regarding the issues related to the Responsible Care Programme

PCC Rokita SA actively strives to fulfil the above strategic objectives.

The Management Board of **PCC Rokita SA** assures that the Responsible Care Policy has been understood, communicated and implemented at each organisational level of **PCC Rokita SA**, covered by the Responsible Care Framework Management System.

Brzeg Dolny, 10 June 2013

Wiesław Klimkowski
President of the Management Board,
Managing Director
PCC Rokita SA
